¹ The Official Government Test Environmental Data for fuel consumption and CO₂ emissions shown in these tables has been obtained under simulated test conditions in accordance with EC Directive 1999/100, and is intended to provide prospective purchasers with data for the purpose of comparing different models. Variations in trim level and equipment, such as larger diameter wheels, may result in slightly higher fuel consumption and CO₂ emission levels than those quoted. The tables do not constitute an implied or express warranty as to the figures obtainable by drivers in real life, which will depend upon speed, driving style, load, tyre pressures, road conditions and traffic.
